Tableau Portfolio: tableau.public.com/app/profile/jaleah.beason

Recent Computer Science graduate with a broad, uninterrupted work history spanning software/product development, data analytics, financial services client support, retail product management, healthcare, transportation/logistics, and technical retail support. Comfortable translating business requirements into technical workflows, working directly with customers and stakeholders, and analyzing data to support decisions. Adaptable, detail-oriented, and quick to pick up new tools, systems, and environments.

SKILLS

Programming & Data: SQL, Python, Java, HTML, CSS, JavaScript, API integration, relational database design

Data & Analytics: Excel, Tableau, data organization and hygiene, trend analysis, dashboard/reporting tools

Business & Client-Facing: Requirements gathering, client support and escalation handling, vendor/supplier negotiation, cross-functional collaboration

Tools: Microsoft Office Suite (Excel, PowerPoint, Word, Outlook), Agile ceremonies

EXPERIENCE

Software/Product Intern

December 2025 – May 2026

Tridna (Sports Analytics Startup) | Louisville, KY

- Partnered with engineers and product stakeholders to gather requirements and translate business needs into clear technical workflows and specifications
- Retrieved, cleaned, and migrated data across testing and production environments, validating functionality and data integrity
- Participated in Agile ceremonies, contributing to feature prioritization and process improvements

Data Analytics Intern

January 2026 – June 2026

Essential Innovations | Louisville, KY

- Consolidated multiple public benefits applications — including TANF, SNAP, and Medicaid — into a single unified intake system with automatic eligibility routing
- Evaluated data and tagging structures for accuracy and consistency, exercising independent judgment to identify and resolve discrepancies
- Built and maintained data structures in Excel, preparing recurring reports on program performance for stakeholders

Client Service Representative, 401(k) Division

April 2025 – September 2025

ADP | Louisville, KY

- Served as a primary point of contact for enterprise clients, providing status updates and coordinating account actions under deadline pressure
- Investigated and documented client-reported issues, escalating and coordinating resolution with internal technical teams

Product Manager

June 2021 – October 2024

Broadway Apparel | Louisville, KY

- Owned product lifecycle across four lines, making restocking and discontinuation calls based on sell-through data and customer feedback
- Managed supplier relationships, negotiating shipping timelines, order quantities, and cost, and evaluating/switching suppliers when reliability or pricing didn't hold up
- Redesigned store layout based on foot traffic and product performance to improve visibility for underperforming lines

Patient Care Associate

October 2021 – September 2022

Norton Healthcare | Louisville, KY

- Monitored and recorded patient vital signs, relaying time-sensitive information to nursing staff to support timely, accurate patient care
- Maintained accurate and detailed patient documentation and records in a healthcare setting governed by strict accuracy and privacy standards

Tech Consultant

August 2022 – January 2023

Geek Squad (Best Buy) | Louisville, KY

- Diagnosed and resolved hardware/software issues for customers, explaining technical concepts in plain language
- Provided setup, troubleshooting, and repair support across a wide range of consumer electronics

Package Handler

2020 – 2021 (plus periodic seasonal roles)

FedEx | Louisville, KY

- Handled high-volume package sorting, scanning, and loading/unloading in a fast-paced logistics environment
- Identified and processed hazardous materials (hazmat) packages in accordance with safety and compliance protocols

Package Handler

2019 – 2020

UPS | Louisville, KY

- Managed package sorting, scanning, and loading/unloading, including customs processing and hazmat identification for international and regulated shipments

Administrative Student Assistant

August 2020 – May 2024

Bellarmino University | Louisville, KY

- Provided administrative and front-office support, managing scheduling and student/staff inquiries

EDUCATION

Bachelor of Arts in Computer Science, Bellarmine University, Louisville, KY, May 2026

- Began coursework in Nursing at Bellarmine University (2020–2022) before transitioning to Computer Science (2022–2026)

PROJECTS

- **Shopping Mall Database (SQL, Python):** Designed a relational database with full CRUD functionality and 5 stored procedures (IN/OUT parameters, JOINS); built a Python command-line client using mysql-connector-python.
- **DevMetrics (Python, CLI, Web Dashboard):** Built a tool that parses web server logs and organizes error rate, busiest endpoint, and traffic data into clean, trackable reporting via CLI and dashboard.
- **Online Retail Analysis, 2010-2011 (Tableau):** Built an interactive Tableau dashboard analyzing a year of UK e-commerce transactions (\$10.6M revenue, 20,725 orders, 4,340 customers), featuring monthly revenue trends, top products, and revenue-by-country mapping.
- **State Pre-K: Cost vs. Outcomes (Tableau):** Designed a Tableau dashboard comparing state-level Pre-K spending against NAEP reading and math outcomes and quality benchmarks, with an interactive year parameter for cross-state comparison.
- **Personal Portfolio Site (HTML, CSS, JavaScript):** Designed and built a personal portfolio website from scratch to showcase technical projects, applying HTML/CSS/JS coursework to a live, deployed site.
